

FATE is now on Twitter!

How-To Guide

New to Twitter?

Read on to find out more about this communication platform that helps people connect world-wide.

What is Twitter?

Twitter is a communication platform that helps everyone, from individuals to businesses, connect to each other in short, 140 character messages. It is like text messaging on your cell phone, but to a much wider audience.

You can choose the people you wish to follow and though it is real-time communication, you can always access your account and read previous updates. By following FATE on Twitter, for example, you will receive the latest information as it is posted to the Fate1.org site, as well as receive updates on relevant articles and activities.

How do I sign up?

Twitter is a free service that is easily set up in less than ten minutes.

1. Go to www.twitter.com/signup and fill out all of the fields. Once you agree to the terms and conditions at the bottom of the page, click on "submit" and you are ready to tweet!
2. Once you get to your new twitter page, take a moment to click on settings in the upper-right-hand corner of the page. Here you can write a brief bio, upload a picture and make your tweets (messages) private.
3. Click on "Find People" next to "Settings" on the upper-right-hand corner of the page. In the field that asks: "Who are you looking for?" type **fate1_org**. Click on the icon that appears and then click on the "Follow" button. You will now receive our updates to your Twitter account.
4. Have fun tweeting!
