

FATE

Florida Association of Teacher Educators

Our Mission includes improving the effectiveness of teacher education through leadership in the development of quality programs to prepare teachers.

The FATE History

FATE, the Florida Association of Teacher Educators became an active state unit of ATE; the Association of Teacher Educators in 1996 when Dr. Mary L. Collins vowed to create an organization that would grow, prosper and withstand political change and the test of time.

Dr. Collins enlisted Dr. Fanchon F. Funk to organize a conference in 1997 with in conjunction with SRATE the Southeastern Regional Association of Teacher Educators. The Florida unit profited from that project, which provided seed money for the inaugural FATE Annual Conference.

Membership in FATE has grown steadily since that spring conference in Orlando. In 2001 the conference was moved to the fall and in 2004 moved to central Florida to better accommodate participation by teacher educators from all five (5) state regions.
